

RETICULATION

SUPPLEMENTARY CREDIT PROGRAMME (SCP)

12 months

20 - 70 credits

Looking to upgrade your current Reticulation Qualification and get recognised as a skilled trades person through Civil Trades? Then this Supplementary Credit Programme (SCP) is for you.

This programme is for people who have completed the National Certificate Water Reticulation (Level 3) and would like to upskill their qualification to a Level 4. This will also provide a stepping stone towards gaining a Civil Trades Certification.

SCP - RETICULATION

As you work through this Supplementary Credit Programme (SCP) you will be able to build on your current Level 3 Water Reticulation Qualification.

PROGRAMME WILL COVER

- Safety maintenance and communication on the worksite and within the community.
- Industry standards and specifications for installing pipes, fittings and structures as well as maintenance.
- Identifying and repairing water or wastewater and stormwater reticulation or faults within the underground utility network.
- Pumping water systems or wastewater and stormwater.

ENTRY REQUIREMENTS

This SCP is suitable if you have already completed the National Certificate in Water Reticulation (Level 3) with a strand in Water or Wastewater [NZQA Ref: 0962] and looking to gain Level 4 recognition. It is expected that those who follow this pathway are ultimately seeking Civil Trades Certification.

HOW IT WORKS

It takes around 12 months to complete this SCP programme. It is achieved through on-job assessments.

WHERE THIS CAN TAKE YOU

Completion of this SCP will provide the necessary Level 4 qualification to apply for Civil Trades Certification and become recognised as a skilled tradesperson.

GET STARTED

Want to enrol or find out more? Contact us and we will put you in touch with your local Customer Service Account Manager (CSAM).
