

DRINKING-WATER TREATMENT

 NZQA #4139  120 credits  20 months

***New Zealand Diploma in Drinking-Water
Treatment (Level 5)***

Take your career to the next level with this qualification to manage and optimise the operation of drinking-water treatment plants as a nationally recognised expert.

As you work through this 20 month programme, you will further develop your skills and knowledge to effectively manage, monitor and optimise a drinking-water treatment plant/s, and maintain compliance with regulatory requirements.

L5 DRINKING-WATER TREATMENT

N E W Z E A L A N D D I P L O M A

This programme is delivered through a combination of online, on-job and off-job block course learning. Get recognised as a skilled drinking-water treatment plant manager with this qualification.

SHOW YOU CAN

- Manage and optimise drinking-water treatment plant operations to ensure compliance with regulatory requirements.
- Implement, monitor and communicate health and safety requirements for a drinking-water treatment plant.

ENTRY REQUIREMENTS

To enrol in this programme you must be currently working in the drinking-water treatment industry, ideally in a role managing the operation of a plant/s and have completed a Level 4 Water Treatment qualification.

HOW IT WORKS

This programme will take around 20 months to complete. Achievement of this qualification occurs through a combination of e-learning and assessment, off-job block courses and workplace assessment.

WHERE THIS CAN TAKE YOU

This qualification can lead you to supervisory, management and business qualifications such as NZC in Infrastructure Procurement Procedures (Level 6) and or NZC in Infrastructure Asset Management (Level 6).

GET STARTED

Want to enrol or find out more? Contact us and we will put you in touch with your local Customer Service Account Manager (CSAM).
