

Connexis Assessor Scopes of Registration

Changes to how scopes are allocated to assessors

Scopes are now being allocated out by qualification to give assessors the ability to assess full qualifications rather than just parts of qualifications. The scope will include all unit standards from within a qualification which have resources available.

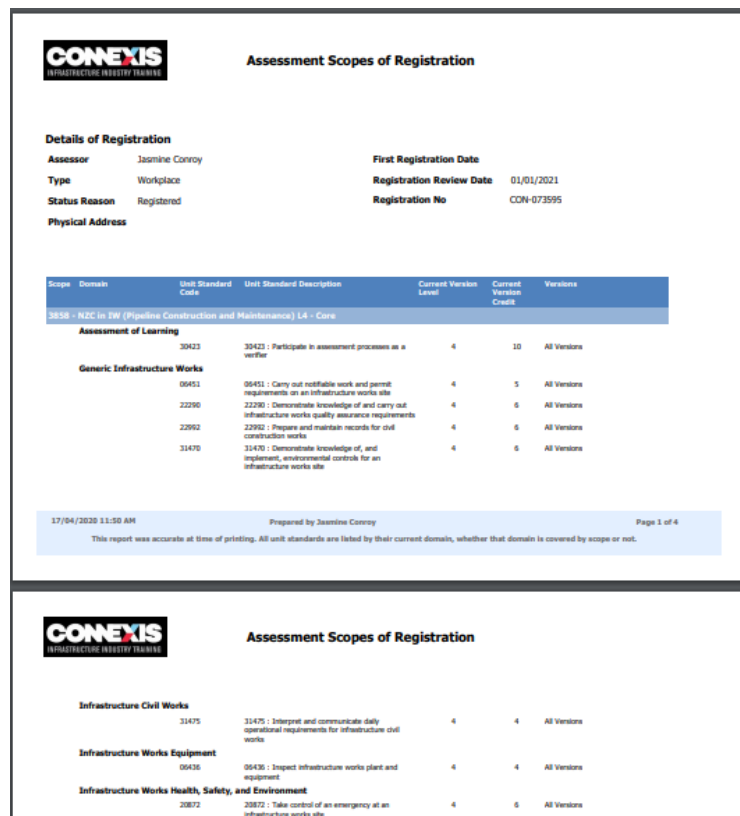

As a rule, we are not allocating single unit standards in scopes, apart from Wheels, Rollers and Tracks, as we are encouraging assessors to assess the full qualification for trainees in formal Training Agreements with Connexis. If there is a requirement for elective unit standards within qualifications these need to be identified for inclusion on your scope.

Because you will be allocated unit standards for the whole qualification and any appropriate 'strands' as well, there may be a number of new unit standards that you have not assessed before, or you do not feel confident of assessing. In this case please advise the QA team and the CSAM when they ask you to complete the assessment and they can find another assessor to do this unit. Alternatively (and we recommend) that you work with an experienced assessor you know that does have this unit, or your mentor, to assess the unit together until you do feel confident.

Due to this change your scope will look different to how it did previously.

New Scope Structure

For each qualification you are allocated, it will follow a building block structure and may look like this:

Assessment Scopes of Registration

Details of Registration

Assessor	Jasmine Corroy	First Registration Date	
Type	Workplace	Registration Review Date	01/01/2021
Status Reason	Registered	Registration No	CON-073595
Physical Address			

Scope	Domain	Unit Standard Code	Unit Standard Description	Current Version Level	Current Version Credit	Versions
3558 - NCE in DW (Pipeline Construction and Maintenance) L4 - Core						
Assessment of Learning						
		30423	30423 : Participate in assessment processes as a verifier	4	10	All Versions
Generic Infrastructure Works						
		06451	06451 : Carry out notifiable work and permit requirements on an infrastructure works site	4	5	All Versions
		22290	22290 : Demonstrate knowledge of and carry out infrastructure works quality assurance requirements	4	6	All Versions
		22992	22992 : Prepare and maintain records for civil construction works	4	6	All Versions
		31470	31470 : Demonstrate knowledge of, and implement, environmental controls for an infrastructure works site	4	6	All Versions

17/04/2020 11:50 AM Prepared by Jasmine Corroy Page 1 of 4
This report was accurate at time of printing. All unit standards are listed by their current domain, whether that domain is covered by scope or not.

Assessment Scopes of Registration

Infrastructure Civil Works						
		31475	31475 : Interpret and communicate daily operational requirements for infrastructure civil works	4	4	All Versions
Infrastructure Works Equipment						
		06436	06436 : Inspect infrastructure works plant and equipment	4	4	All Versions
Infrastructure Works Health, Safety, and Environment						
		20872	20872 : Take control of an emergency at an infrastructure works site	4	6	All Versions

Each qualification will start with a core, in this example we can see that in the Core, the domain and the unit standards that the core of the scope covers, try and think of this as the base of the qualification:

Scope	Domain	Unit Standard Code	Unit Standard Description	Current Version Level	Current Version Credit	Versions
3858 - NZC in IW (Pipeline Construction and Maintenance) L4 - Core						
Assessment of Learning						
		30423	30423 : Participate in assessment processes as a verifier	4	10	All Versions
Generic Infrastructure Works						
		06451	06451 : Carry out notifiable work and permit requirements on an infrastructure works site	4	5	All Versions
		22290	22290 : Demonstrate knowledge of and carry out infrastructure works quality assurance requirements	4	6	All Versions
		22992	22992 : Prepare and maintain records for civil construction works	4	6	All Versions
		31470	31470 : Demonstrate knowledge of, and implement, environmental controls for an infrastructure works site	4	6	All Versions

Assessment Scopes of Registration

Infrastructure Civil Works

31475	31475 : Interpret and communicate daily operational requirements for infrastructure civil works	4	4	All Versions
-------	---	---	---	--------------

Infrastructure Works Equipment

06436	06436 : Inspect infrastructure works plant and equipment	4	4	All Versions
-------	--	---	---	--------------

Infrastructure Works Health, Safety, and Environment

20872	20872 : Take control of an emergency at an infrastructure works site	4	6	All Versions
20876	20876 : Conduct and document infrastructure works health and safety meetings	4	3	All Versions

Infrastructure Works Supervision

26780	26780 : Determine, issue, and monitor resources for daily activities on an infrastructure works site	4	10	All Versions
26781	26781 : Identify and liaise with people affected by activities at an infrastructure works site	4	3	All Versions
26783	26783 : Organise the supply and storage of materials for an infrastructure works site	4	5	All Versions

Infrastructure Works Utilities

31515	31515 : Carry out pipeline construction or maintenance preparation and service location	4	5	All Versions
31516	31516 : Carry out excavation and post-excavation reinstatement work for pipeline construction or maintenance	4	10	All Versions
31517	31517 : Demonstrate knowledge of and select pipes and fittings for pipeline construction and maintenance	4	5	All Versions
31518	31518 : Demonstrate knowledge of and select methods for pipeline construction and maintenance	4	10	All Versions
31519	31519 : Demonstrate knowledge of stakeholder engagement for pipeline construction and maintenance projects	4	8	All Versions

If the expertise for a qualification is met, a specialisation may be granted. Think of this as the second level of the structure. Any unit standards that is included relate to the qualification, however only to a specification of that strand. You may be allocated all of the strands or only those you have expertise in.

3858 - NZC in IW (Pipeline Construction and Maintenance) L4 Wastewater and Stormwater Strand

Generic Infrastructure Works

27328	27328 : Install structures for infrastructure pipelaying and carry out follow-up procedures	4	10	All Versions
31245	31245 : Plan for and lift, move, and place loads using mobile plant, in infrastructure works environments	3	5	All Versions

Hazardous Substances and Materials

30596	30596 : Demonstrate knowledge of asbestos and safety measures for asbestos-related work	3	2	All Versions
-------	---	---	---	--------------

Infrastructure Works Utilities

25445	25445 : Demonstrate knowledge of bypass pumping and employ bypasses for pipeline construction or maintenance	4	4	All Versions
28722	28722 : Confirm alignment and reinstate pipes and structures to correct line and level	4	4	All Versions
31523	31523 : Install pipes for infrastructure pipelaying	4	11	All Versions

Water Reticulation

22104	22104 : Demonstrate knowledge of pipe jointing systems for water reticulation	4	6	All Versions
30095	30095 : Carry out CCTV inspection of non-pressure water services assets	4	6	All Versions
30096	30096 : Report on pipe condition for a CCTV inspection of non-pressure water services assets	4	4	All Versions

20/04/2020 11:56 AM

Assessment Scopes of Registration

Water Reticulation

31524	31524 : Carry out butt fusion jointing on polyethylene pipes for water networks	4	10	All Versions
31525	31525 : Carry out electrofusion jointing on polyethylene pipes for water networks	4	10	All Versions
31527	31527 : Demonstrate knowledge of wastewater and stormwater networks for pipeline construction and maintenance	4	6	All Versions
31528	31528 : Perform work on live wastewater and stormwater networks	4	10	All Versions
31529	31529 : Construct a pressure rising main	4	5	All Versions
31530	31530 : Operate a vacuum loading vehicle for wastewater or stormwater maintenance	3	5	All Versions
31532	31532 : Demonstrate knowledge of fusion jointing of polyethylene pipes for water networks	4	5	All Versions

RCC is now also registered as a strand. The RCC strand will only be allocated if you are registered as an RCC assessor. The RCC strand is slightly different as this will be made up of unit standards that are not included in the core strands and can only be assessed by RCC assessors.

3858 - RCC NZC in IW (Pipeline Construction and Maintenance) L4 - Waste Water and Storm Water Strand

Infrastructure Works Utilities

31531	31531 : Carry out rubber ring jointing on pipes for infrastructure works	4	6	All Versions
-------	--	---	---	--------------
