L4 AGRICHEMICAL APPLICATION

NEW ZEALAND CERTIFICATE

IT WILL COVER

- Skills and knowledge needed to work confidently in agrichemical application
- Best practice in transporting agrichemical concentrates by road and develop an emergency procedure guide
- Health and safety requirements and risk assessment
- General knowledge of agrichemicals
- General knowledge of the environmental aspects of agrichemical use

ENTRY REQUIREMENTS

It is recommended that you complete introductory applicator training prior to enrolment and have experience in agrichemical application. You must be employed in the agrichemical application industry.

HOW IT WORKS

It takes around 10 to 11 months to complete this programme. Achievement of this programme is through on-job assessment and related theory work, or through Recognition of Current Competence (RCC). If you have 3 to 5 years of experience working in the industry, and can provide a portfolio of evidence, then RCC could be an option for you as it recognises your prior skills; allowing you to get qualified within a shorter timeframe.

WHERE THIS CAN TAKE YOU

This qualification complies with NZS 8409:2004 Management of Agrichemicals. This qualification can assist in streamlining your Worksafe Certified Handler Compliance Certificate application. It can also lead towards self-employment and business qualifications such as the New Zealand Certificate in Business (First Line Management) (Level 4) [Ref: 2456]. Gaining this qualification allows you to apply to become a Registered Chemical Applicator (RCA) through Growsafe.
