Traffic Incident Management

Level 3

Q NZQA #4263 | © 60 Credits | © 9 Months

Recognition for keeping NZ roads and road users safe in the event of an incident.

Skills Covered:

- Assessing risks to ensure the safety of first responders and other road users during a traffic incident.
- Responding, monitoring and adjusting traffic incident response to reduce incident duration and restore normal traffic flow as soon as is safely possible.
- Completing documentation and post incident procedures to re-open a traffic incident site.

Entry Requirements:

The learner must be employed in the traffic incident management industry and be exposed to the relevant skills covered.

Modes of Delivery:

This programme is assessed on-job and is completed through workbooks. It can also be achieved through Advanced Portfolio Assessment (APA). If the learner has a minimum of 4 years experience working in the industry, and can provide a portfolio of evidence from the past 24 months linking to the level of this programme's unit standards, then APA could be a great option to recognise existing skills.

Progression Pathways:

Graduates will be able to operate under limited supervision within a traffic incident management team.
