

A yellow excavator is shown in a forest setting, working on a large, rectangular concrete structure. The excavator's arm is extended, and it appears to be in the process of lifting or moving the structure. The background is filled with tall, thin trees, suggesting a forest environment. The overall scene is one of heavy construction work in a natural setting.

# Forestry Earthworks

Level 4

🔍 NZQA #3782 | ✅ 120 Credits | ⌚ 16 Months

Recognising skills to work in forestry earthworks.

# Forestry Earthworks

## Skills Covered:

- Reading and making plans for forestry earthworks.
- How to work within environmental, sustainable and safety standards.
- Working in a team and with other forestry users.
- Meeting worksite requirements using flexible work practises.

## Modes of Delivery:

This programme is assessed on-job and is completed through workbooks. It can also be achieved through Advanced Portfolio Assessment (APA). If the learner has a minimum of 4 years experience working in the industry, and can provide a portfolio of evidence from the past 24 months linking to the level of this programme's unit standards, then APA could be a great option to recognise existing skills.

## Entry Requirements:

The learner must be employed in the forestry earthworks industry and be exposed to the relevant skills covered.

## Progression Pathways:

This qualification can lead towards Civil Trade Certification (CTC). Graduates can also carry on to the NZ Certificate in Infrastructure Works (Single Site Supervision) (Level 4), NZ Certificate in Infrastructure Works (Projects) (Level 5) or the NZ Certificate in Infrastructure Works (Contract Management) (Level 5).
