Hydrographic Surveying

Level 4

QNZQA #2958-2 G 65 Credits D 10 Months

Taking recognised hydrographic surveying skills to new depths.

connexis.org.nz

Skills Covered:

- · Understanding and applying tidal and depth measurement theory to work.
- Using positioning and hydrographic surveying principles to complete surveys.
- Applying practical surveying, communication and mathematical skills for surveying under supervision.
- Applying health, safety, and environmental practices and complying with legislative requirements when carrying out work.

Modes of Delivery:

This programme is assessed on-job and is completed through workbooks.

Entry Requirements:

The learner must also be employed in the hydrography industry and be exposed to the relevant skills covered. The learner must have NCEA Level 3 Mathematics and English or equivalent skills and knowledge as well as Survey measurement and software operation skills. It is recommended the learner have good oral, written and interpersonal communication skills.

Progression Pathways:

Graduates will have a nationally recognised qualification to prove they have the specialised skills to competently work in hydrography.
