NEW ZEALAND CERTIFICATE IN  
INFRASTRUCTURE WORKS

# Single Site Supervision

## Skills Covered:

- Supervising implementation of health and safety, and environmental procedures for single site works.
- Leading and monitoring a team.
- Meeting site and job contract requirements.
- Planning and tracking resources, equipment and machinery needed on-site.
- Implementing industry best practise procedures on a single site.

## Entry Requirements:

The learner must be employed in the infrastructure industry and exposed to the relevant skills covered. It is recommended learners hold a current Level 4 infrastructure qualification.

## Modes of Delivery:

This programme is achieved through on-job assessment and is completed through workbooks. It can also be achieved through Advanced Portfolio Assessment (APA). If the learner has a minimum of 4 years experience working in the industry, and can provide a portfolio of evidence from the past 24 months linking to the level of this programme's unit standards, then APA could be a great option to recognise existing skills.

## Progression Pathways:

Graduates of this qualification can progress to the NZ Certificate in Infrastructure Works (Contract Management) (Level 5) or the NZ Certificate in Infrastructure Works (Projects) (Level 5).
