Procurement Procedures

Skills Covered:

- Creating a procurement plan
- Preparing RFx documents
- Managing procurement processes
- Evaluating tenders
- Applying legal and ethical standards to tendering processes
- All learners need to complete the requirements in accordance with the Government Procurement Rules.

Entry Requirements:

To enrol in this programme the learner must be employed in the procurement industry. There are no formal prerequisites but this is not an entry-level programme.

To succeed learners should:

- Be working in procurement and/or tendering processes in the infrastructure industry.
- Be self-motivated and disciplined to undertake self-directed personal development activities for assessment.
- Have strong oral, written, interpersonal communications and mathematical skills.

Modes of Delivery:

This qualification is achieved through on-job assessment and is completed through workbooks or eLearning.

Progression Pathways:

The practical, skills-based nature of this programme makes it relevant right up to senior procurement management levels. However, it may still lead to other qualifications at the same level such as the New Zealand Diploma in Infrastructure Asset Management, or a qualification in the engineering space such as the New Zealand Diploma in Engineering or the New Zealand Diploma in Engineering Practice.
