

PROCUREMENT PROCEDURES

 NZQA #3179 -2  80 credits  14 months

New Zealand Certificate in Infrastructure Procurement Procedures (Level 6)

Become a procurement superstar with this one-of-a-kind programme, tailored specifically for New Zealand procurement specialists.

Take your career to the next level by becoming a qualified procurement consultant for infrastructure projects, planning and managing procurement strategies and applying Government Procurement Rules. Gain the only NZQA qualification that recognises the practical application of best practice procurement in New Zealand. This qualification is designed for procurement professionals working across the infrastructure industry. It is a mandatory qualification for at least one of the members of an evaluation team for NZ Transport Agency projects over \$200,000.

L6 PROCUREMENT PROCEDURES

NEW ZEALAND CERTIFICATE

LEARN HOW TO

- Create a procurement plan
- Prepare RFx documents
- Manage procurement processes
- Evaluate tenders
- Apply legal and ethical standards to tendering processes

All candidates need to complete the requirements in accordance with the *Government Procurement Rules*.

ENTRY REQUIREMENTS

There are no formal prerequisites but this is not an entry-level programme. To succeed you should:

- Be working in procurement and/or tendering processes in the infrastructure industry
- Be self-motivated and disciplined to undertake self-directed personal development activities for assessment
- Have strong oral, written, interpersonal communications and mathematical skills

HOW IT WORKS

This qualification will take up to 14 months to complete. As the qualification is designed for self-paced learning, time may vary between individuals. It is achieved through both a theoretical and practical focus, with assessments taking place on-job through a portfolio of evidence and a professional discussion.

WHERE THIS CAN TAKE YOU

The practical, skills-based nature of this programme makes it relevant right up to senior procurement management levels. However, it may still lead to other qualifications at the same level such as the New Zealand Diploma in Infrastructure Asset Management, or a qualification in the engineering space such as the New Zealand Diploma in Engineering or the New Zealand Diploma in Engineering Practice.
