

WIND FARM MAINTENANCE

NZQA #4261

60 credits

9 months

***New Zealand Certificate in
Wind Farm Maintenance (Level 3)***

Are you a big fan of renewable energy? This programme will recognise and develop your skills to be able to maintain New Zealand's wind turbine fleet and provide the country with clean green electricity.

Hone your skills and knowledge to provide the ability to service, and maintain wind turbines. You'll get to be involved in servicing, repairs, scheduled maintenance tasks, and all the things that keep the turbines producing power, while they are safe to work in and around.

L3 WIND FARM MAINTENANCE

NEW ZEALAND CERTIFICATE

LEARN HOW TO

- Work safely and effectively in a wind farm environment in accordance with workplace policies, procedures and relevant regulations.
- Operate and maintain electrical, mechanical and hydraulic systems used in wind turbines to comply with manufacturer's and asset owner's specifications.

ENTRY REQUIREMENTS

This programme is suitable for those entering directly into the industry, or for people who work on a Wind Farm. Although not an entry requirement, this programme can build on the New Zealand Certificate in Electricity Supply (Introductory) (Level 2) with a strand in Electrical Works. The Wind Farm strand will be available in 2023.

HOW IT WORKS

This programme will take around 9 months to complete and is achieved through on-job assessment. This programme can also be completed through Recognition of Current Competence (RCC). If you have 3 or more years of experience working in the industry, and can provide a portfolio of evidence, then RCC could be a great option for you to get qualified sooner.

WHERE THIS CAN TAKE YOU

You'll be qualified as a wind turbine service technician, and will be able to operate under limited supervision. This programme can lead into the New Zealand Certificate in Wind Farm Maintenance (Level 4) which is soon to be developed.

GET STARTED

Want to enrol or find out more? Contact us and we will put you in touch with your local Customer Service Account Manager (CSAM).
