

# WIND FARM MAINTENANCE

NZQA #3793

80 credits

12 months

***New Zealand Certificate in  
Wind Farm Maintenance (Level 4)***

**If you have an electrical, mechanical, or hydraulics background, or previous experience in the wind energy industry, then this programme is for you!**

This programme will recognise your skills and knowledge to work safely while diagnosing and repairing wind turbine systems, to meet legislative requirements and manufacturer's specifications on a wind farm. You will gain the confidence to operate independently, boosting the number of projects you can get your hands on.

# L4 WIND FARM MAINTENANCE

NEW ZEALAND CERTIFICATE

## LEARN HOW TO

- Monitor the workplace and respond to issues as required to maintain a safe and effective workplace in a wind farm environment.
- Diagnose and repair faults in electrical, mechanical and hydraulic systems used in wind turbines to comply with manufacturer's and asset owner's specifications.

## ENTRY REQUIREMENTS

This programme has no an entry requirements but it does build on the New Zealand Certificate in Wind Farm Maintenance (Level 3).

## HOW IT WORKS

This programme will take around 12 months to complete and is achieved through on-job assessment. This programme can also be completed through Recognition of Current Competence (RCC). If you have 3 or more years of experience working in the industry, and can provide a portfolio of evidence, then RCC could be a great option for you to get qualified sooner.

## WHERE THIS CAN TAKE YOU

Graduates of this qualification will be able to work with electricity generation companies in roles such as:

- Wind Turbine Technician
- Technical Specialist
- Blade Repair Technician
- Commissioning Engineer
- Site Manager
- Senior Manager

This programme can also lead to the New Zealand Diploma in Engineering (Level 6) with strands in Civil Engineering, or Electrical Engineering.

## GET STARTED

Want to enrol or find out more? Contact us and we will put you in touch with your local Customer Service Account Manager (CSAM).

### WHAT'S IN IT FOR YOU

GET RECOGNISED FOR HAVING THE SKILLS TO DIAGNOSE AND REPAIR FAULTS IN WIND TURBINES

IMPROVED CAREER PROSPECTS AND EARNING POTENTIAL

GET UP TO SPEED WITH LATEST BEST PRACTISE AND HEALTH & SAFETY STANDARDS

GET QUALIFIED IN THE FAST-GROWING RENEWABLE ENERGY SECTOR

EARN WHILE YOU LEARN

### WHAT'S IN IT FOR YOUR EMPLOYER

STRENGTHENED TENDERS AND CONTRACTS

INCREASED PRODUCTIVITY AND CAPABILITY

INCREASED ENGAGEMENT AND RETENTION WITH RECOGNISED CAREER PROGRESSION PATHWAYS

BEST PRACTICE AND PROCEDURES FOLLOWED

REDUCED OPERATION & MAINTENANCE COSTS
