

3970 NZC in Telecommunications (L4) – Programme of Industry Training – Industry Consultation Feedback

You are invited to provide feedback on the **3970 NZC in Telecommunications (Level 4)**.

Te Pūkenga-Connexis Business Division has been working closely with NZQA on programmes that are on the NZ Qualification Framework, that Connexis has been granted Programme Approval for.

A recommendation on the above programme is now needed and as part of this review we are requiring a wider industry voice to determine uptake and usage for industry.

The qualification itself is due for a scheduled review by Waihanga Ara Rau in early 2023.

The 3970 NZC in Telecommunications has been designed to provide Aotearoa New Zealand with telecommunications industry with advanced technicians who can work on complex telecommunication networks.

This survey is to gather feedback from key partners and stakeholders about uptake and usage for industry.

Feedback for this consultation will close at 5pm on Friday 31st March 2023

Please feel free to share this survey link within your networks.

We sincerely thank you for your time in completing the following survey.
