

## **4191 - NZC in Bituminous Product Manufacturing (L4) – Programme of Industry Training – Industry Consultation Feedback**

You are invited to provide feedback on the **4191 NZC in Bituminous Product Manufacturing**.

Te Pūkenga-Connexis has been working closely with the workforce development council Waihangā Ara Rau and NZQA on programmes that are on the NZ Qualification Framework, that Connexis has been granted Programme Approval for.

A recommendation on the above programme is now needed and as part of this review we are requiring a wider industry voice to determine uptake and usage for industry.

The 4191 NZC in Bituminous Product Manufacturing has been designed to provide Aotearoa New Zealand with people who can work in bitumen and asphalt product manufacturing plants as experienced and competent operators.

This survey is to gather feedback from key partners and stakeholders about uptake and usage for industry.

**Feedback for this consultation will close at 5pm on Friday 31<sup>st</sup> March 2023**

Please feel free to share this survey link within your networks.

We sincerely thank you for your time in completing the following survey.
