APA ADVANCED PORTFOLIO ASSESSMENT

HOW THE APA PROCESS WORKS

APA recognises your existing skills and knowledge against a nationally recognised trade qualification, reducing the time it takes to complete.

THROUGH THE PROCESS YOU WILL:

- Work with a Connexis Customer Service Account Manager (CSAM) to develop a portfolio of evidence
- Have an Assessor assess your skills and knowledge against the programme outcomes using a combination of your portfolio, professional conversation, and referees

CHECK YOUR ELIGIBILITY

If you have a minimum of four years experience working at the relevant level in industry, then APA could be a great option to recognise your skills towards a Connexis programme.

LET'S TALK

Want to check your eligibility for the APA process or find out more? Contact us and we will put you in touch with your local CSAM.
