### What does your event look like

Come and join the John Fillmore Contracting (JFC) team, at our Transport Yard based out in Mangere Bridge. Our Transport Yard is the home of JFC’s large trucks, mobile plant, and small tools. All lead by the JFC Transport General Manager and her team that manage the distribution and allocation of all Truck Drivers, all vehicles and all equipment across the various JFC sites.

You will hear journeys of our wāhine leaders, who project manage, engineer, construct and oversee the many projects that are currently underway. Giving insight into their roles, pathways and how they contribute to the success of our sites.

JFC’s best instructors will get you hands on experience operating mobile plant and with the tools of the trade and understanding the precautions taken to ensure high quality results and safety in practice.

We look forward to welcoming you into a world of opportunities in the Civil industry at one of our important JFC locations.
